Mr. Cliff Nash
Nash, Inc.
3494 N. HWY 301
Coleman, FL. 33521

Subject: Letter of Acknowledgement

Dear Cliff,

I would like to take this opportunity to thank you and the dedicated team at Nash Plumbing and Mechanical Contractors for your significant role in two (2) of the Clark Construction Group, LLC's most recently completed projects.

In part due to the hard work, perseverance, attention to quality, detail & safety, and the overriding "Will Not – Cannot Fail" attitude of your personnel both the Civil Commitment Center for Sexually Violent Predators (SVP) in Arcadia, FL and the Suwannee Correctional Institution (SCI) Annex in Live Oak, FL were both completed ahead of schedule and with significant return of savings back to the owner, the State of Florida.

The respective teams lead by Johnathan Brokaw and Fred Rose at SVP and George Nash and Marty Hill at SCI should be commended for their team's performances

Over the past nineteen (19) years since my first project experience with Nash at the Federal Correctional Complex at Coleman, FL., your company has been a major contributor to the successes of Clark on many significant projects. Whether Hard Bid, CM at Risk, or Design Build – from El Paso, Texas to Goose Creek, South Carolina yourself, Dave Mears and John Gallico and your operations and office personnel have supported Clark and our project teams in a most professional and cooperative manner and have become a valuable asset and a "Counted on Performer" in many of our selected opportunities.

In closing I just would like to say thank you to yourself and Dave for the top notch organization that you oversee and also for always doing what is right and necessary for the overall success of a construction project. I know firsthand that it is not always easy to do but you have done it very well. It is a pleasure dealing with your organization and I'm confident that Clark can count on Nash to continue to deliver quality plumbing and mechanical services to Clark and our clients for many years to come.

We at Clark look forward to our next construction opportunity and a continued relationship with Nash, Inc.

Sincerely,

THE CLARK CONSTRUCTION GROUP, LLC

Anthony J. Gullivan
Vice President
